1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Brodbine on Oct. 22, 2003.

The application has been amended as follows:

In claim 1, 1) after "wherein", please delete the entire phrase "E is an epoxy-functional... to a Si-atom; and" and 2) on the fifth to the last line, please delete "wherein the hydrocarbon group of E comprises a C₃₋₁₂ hydrocarbon group,".

Please cancel claim 4.

In claim 8, please delete "the epoxy functional organopolysiloxane resin comprises T units and".

In claim 11, 1) on the fourth to the last line, please delete the entire phrase "epoxy functional C₁₋₁₈ hydrocarbon group... heteroatom linking group," 2) in place of this deleted phrase, please insert "E group," 3) on the last line, please replace "R⁶ - E¹" with "E".

Please cancel claims 12 and 13.

In claim 16, please replace "about 4" with "about 3".

In claim 26, after "wherein" please delete the phrase "E is an epoxy-functional C₁₋₁₈... bonded to a Si- atom; and".

On page 1 of the specification, line 5, after "1999" please insert ", now US 6,344, 520".

These amendments were made to eliminate possible rejections under 35 U.S.C. 112 in view of applicants' amendment and to ensure that the dependent claims are further limiting.

2. The following is an examiner's statement of reasons for allowance: For reasons consistent with that noted in previous office actions, the instant claims are neither taught nor suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
